

Meadow Restoration Events

Lower Winskill Farm

2003-2004

Photographs

Flora Locale and Winskill Farm Visitor Centre

Early June in the Overing Meadow, Lower Winskill, Upper Ribblesdale. This meadow is first documented in 1589.

The Rekord self propelled unit with a front mounted seed harvester.

This machine is designed to drive a range of front mounted equipment including cutting and baling machines. It is used in upland Continental hay meadows on difficult terrain.

The front mounted Rekord seed harvester.

Harvesting common knapweed seed using a vacuum seed harvester.

Hand collecting wild flower seed.

An indoor presentation sitting on hay bales!
